

## Fall in with your intranet

Ready-to-go  
Modern Intranet on  
Office 365 and SharePoint

## Let's face it – most employees hate their current intranets

People find it hard to find anything from their corporate information graveyards, content is out-dated, search isn't working, user experience is horrible, and the intranet can't be used with a mobile phone.

**Sounds familiar? - Well, it doesn't have to be like that.**

Valo Intranet is the front door to your digital workplace. It is the right tool for more effective working days: the centre of all communication, social interaction and teamwork in your organization with a beautiful user experience. Valo works with every device, it is always up-to-date, and you can start using it immediately - not after a 6 month expensive project.

**Make your people happier and more productive**

## Intranet-in-a-box. Build a beautiful SharePoint intranet in days, not months.

# Easy to use, fast to deploy, and beautiful to look at

Find out what Valo Intranet packs

## Cloud or On-Premises

Supports Office 365 and On-premises SharePoint Server.

## Best Practices in a Box

Front page, content pages, easy navigation, footer, breadcrumb path, drag & drop images, responsive design etc.

## All Features You Need

Company News, Content Pages, Events, Surveys, Forms, Classifieds, Alert News, Quick Links, Search, Open Positions, RSS Feeds, FAQ, Workspace Lifecycle Management, Admin Toolpack, Yammer Integration, Social Hub, and many more!

## Stays fresh

New updates every three months make sure that your intranet will never get old. Peace of mind!

## Tested Information Architecture

## Fall in ❤️ with your intranet

### Built using Microsoft latest technical recommendations

Valo is 100% aligned with Microsoft's Cloud Add-In model. This means that all the customizations are isolated outside SharePoint. This leads to better performance, great manageability and a future-proof Intranet.

### Intranet-in-a-box using Sharepoint and Office 365

Valo Intranet provides the best possible intranet experience using Sharepoint and Office 365 by filling in the gaps for Microsoft and leveraging all the capabilities of those platforms: integrations to Yammer, Delve, Office 365 Video and Groups.

### Bring the sunshine into your company with Valo Intranet!

- 1 100% Office 365 compatible
- 2 On premises SharePoint Server 2013 and 2016 supported
- 3 Built using SharePoint Add-in Model
- 4 Native Mobile app for iPhone and Android
- 5 Customizable
